

INSTALLATION INSTRUCTIONS

PLEASE READ THESE STEPS BEFORE PROCEEDING

By now you have taken a physical inventory and are ready to install your site furniture.

If you have received a welded bench or litter receptacle, the unit is ready to use. You may be required to bolt the unit in place. The anchor tabs have been drilled with a 5/8" hole; use a 1/2" anchor bolt of whatever length the specs call out. The anchoring hardware has not been included in your order.

We recommend all anchor bolts to be expansion bolts and STAINLESS STEEL for installation into concrete surfaces. We DO NOT provide anchor bolts with our products due to the numerous surfaces to which our products are affixed (ex: brick pavers, concrete, terrazzo floors, etc.). We recommend that clients consult with their contractor or a hardware supply store for a recommendation on the appropriate type of anchor bolt to use for their application.

BENCHES

With the exception of the Augustine, Carson, Everett, Lamplighter, Robinson, Rosedale, Schenley, and Torque benches, the following anchor bolts apply for all benches:

Quantity per: Four
Size: 1/2" diameter, no shorter than 4" in length

Augustine, Everett, Lamplighter, Robinson, Rosedale, and Schenley

Quantity per: Four
Size: 3/8" diameter, no shorter than 6" in length

Torque

Quantity per: Four
Size: 1/2" diameter, no shorter than 5-7" in length

Carson

Quantity per: Four (CSL4), Six (CS14, CS24, CSL6, CSL8), Eight (CS16, CS26), or Ten (CS18, CS28)
Size: 1/2" diameter, no shorter than 4" in length

TABLE SETS

Quantity per: Four per chair, Four per table base
Size: 1/2" diameter, no shorter than 4" in length

LITTER RECEPTACLES

Elevated Legs

Quantity per: Four

Size: 1/2" diameter, no shorter than 4" in length

Adjustable Legs

Quantity per: Two (affixed through the two cross straps at the bottom of the unit)

Size: 1/2" diameter, no shorter than 4" in length

ASH RECEPTACLES

Elevated Legs

Quantity per: Four

Size: 1/2" diameter, no shorter than 4" in length
