

DESIGN | ORIGINALITY | EXPERTISE

MADE IN THE USA

Keystone Ridge Designs has a rich tradition of providing our American-made site furnishings to public spaces nationwide. Welded and powder coated by the hands of skilled craftsmen, we proudly manufacture, powder coat, package and ship all of our steel products out of our headquarter facilities in Butler, Pennsylvania.

In addition, we assemble our products using steel and raw materials sourced from American manufacturers. We make a conscious effort to partner with regional material suppliers and vendors whenever possible while also contributing to the local economy through employment opportunities and community service.

Therefore, it is with great pleasure that we encourage people to Buy American and we state Keystone Ridge Designs' exclusive site furnishings are *made in the USA* and align with the initiatives of the Build America Buy America Act.
