

# PENN

## PENN CURVED TABLE SET

All Penn pieces are Exclusive By Design™.

### KEYSHIELD® METAL FINISH

The trademarked KEYSHIELD® finish protects each piece of furniture from chipping, cracking, and UVA damage while providing unparalleled corrosion resistance. Steel products are finished with a two-coat powder coating process applied to a 7-15 mil thickness. Substrate preparation includes sandblasting to a white finish to remove all surface contaminants. The raw product then receives a corrosion-inhibiting phosphate coating prior to the application of the powder coating. The first coat applied to the substrate is zinc rich epoxy powder primer used exclusively on sandblasted parts. The second coat is a colored polyester powder coating. Both coats are electrostatically applied and oven cured according to powder coating manufacturing specifications to create a smooth, satin-like finish and a low-emitting non-porous armor.

### SOME ASSEMBLY REQUIRED

The Penn table with curved seats is manufactured to provide ultimate stability and avoid damage during transit to the site. Minor assembly is required. Instructions are included with each shipment.

### OPTIONS

Table top can be round or square, with or without umbrella hole. Larger sizes, individual chairs or ADA accessible options are available.

### MATERIALS

Commercial-grade materials, 25% recycled raw steel, 100% recyclable steel; completely welded for optimum strength and stability according to Keystone Ridge Designs, Inc. CAD drawing; table: 11 gauge spun table top attached to 3/16" connector steel plate via 1/8" x 1" square steel tubing and 3/8" x 1" bolts and flat washers; legs: 2" schedule 40 pipe legs attach to table top assembly by 1/2" x 1 1/2" bolts, nuts and washers; legs attach to each other via seat flanges and 3/8 x 1 1/2 bolts; seats: 3/8" steel plate seat slats with 11 ga x 1 1/2" o.d. tubing seat front and back attached to 1/2" solid round bar seat supports and ends finished with 1/4" steel plate ends
